

The Agenda 2030 for Sustainable Development

30.10.2019

A [specific website](#), is dedicated to the 2030 Agenda for sustainable development. It has been set up with the aim to provide essential information on the programme of the development for the international community – the 2030 Agenda and monitoring of the progress achieved by the fulfilment of the 2030 Agenda goals at the global, European and national levels.

The website provides access to time series of national indicators that are stored in the statistical database DATAcube. and the links on official websites and databases of the UN and Eurostat focused on sustainable development. As development of indicators and related progress monitoring is a continuing process, the websites and databases are complemented and updated on an ongoing basis.
