Language versions: SK/EN

Number of pages: 86

Publication code: 51122

Data on the classification of farms into economic size classes measured by the standard production. The standard production expresses the economic size of the farm in euros by the area of cultivated crops in hectares and the number of heads of farmed livestock. At the same time, the publication contains sorted farms according to their specialization, namely specialized in crop production, animal production or mixed production.
