In July, import and export of goods dropped to this year's minimum, but the balance resulted in a surplus of almost EUR 366 million

Slovak exports continued to be the most significantly affected by the export of motor vehicles even in the first holiday month. Year-on-year imports dropped for the fourth consecutive month, mainly due to a decrease in the value of imports of energy commodities.

In July 2023, according to preliminary results, goods in the amount¹⁾ of EUR 8.1 billion were exported from Slovakia, with year-on-year growth by 4.6%. Year-on-year export growth has continued since January 2023. Imports of goods were lower compared to the corresponding period last year for the fourth consecutive month, currently by 2.4% and reaching a value of EUR 7.7 billion. The balance of foreign trade was in surplus in the amount of EUR 365.7 million, which was a better result by almost EUR 547.8 million compared to the corresponding period last year.
