The deficit of government reached 4,89% of GDP

In 2023, the deficit of the general government of the Slovak Republic increased significantly year-on-year, exceeding EUR 6 billion. As a share of GDP, it rose from 1.67% in 2022 to 4.89% in 2023. The total debt of the general government sector decreased to 56% of GDP.

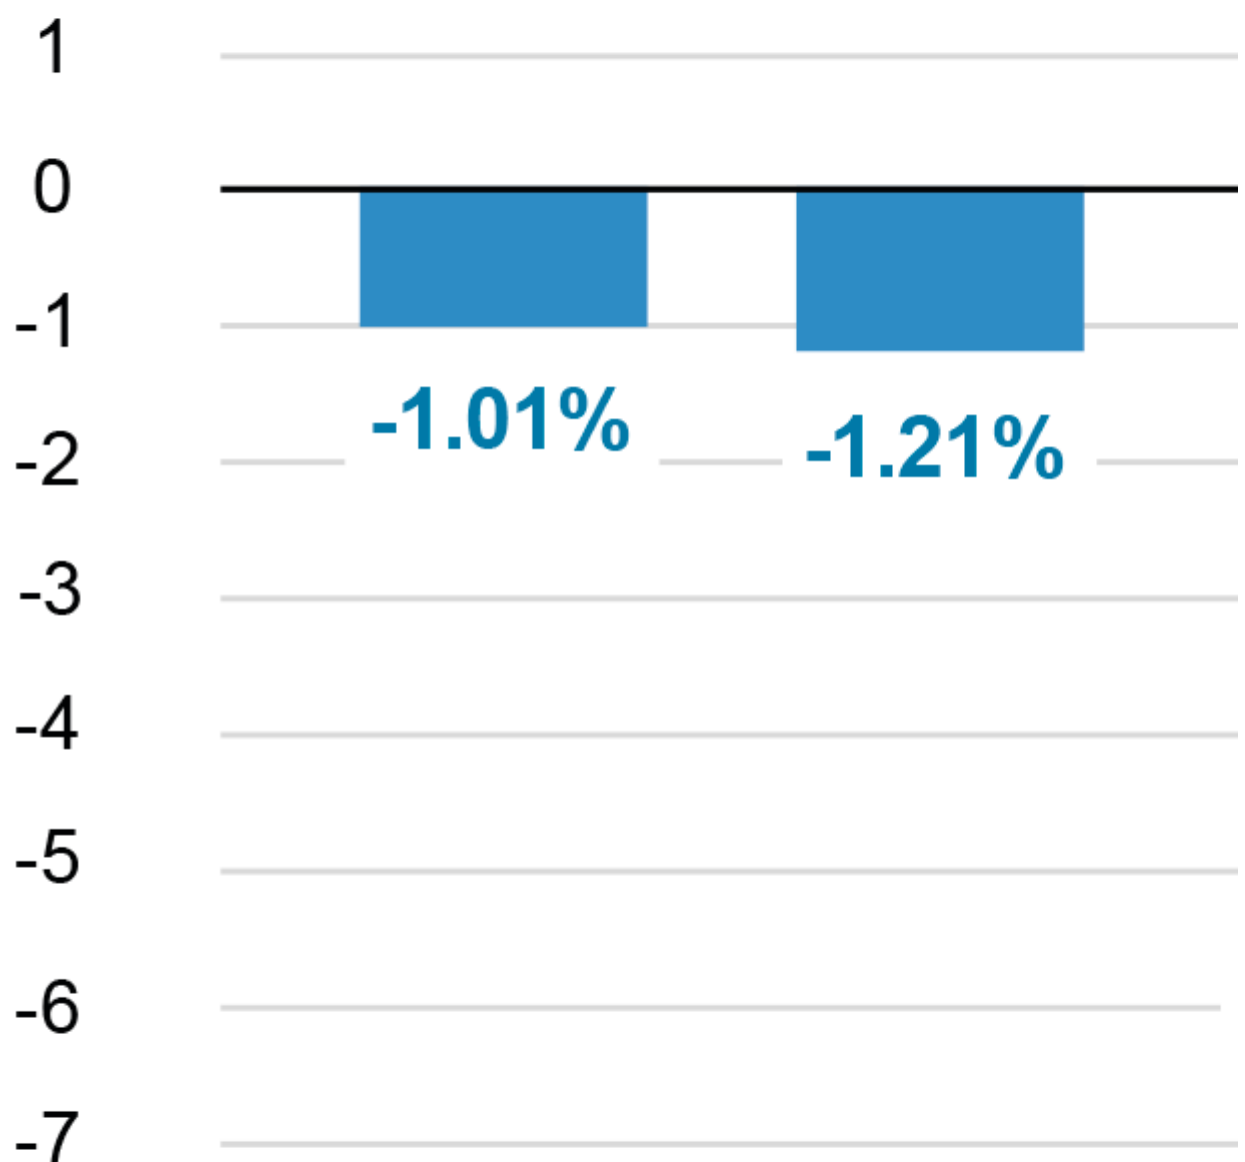

The total deficit of the Slovak general government sector in 2023 reached EUR 6.01 billion, which represented 4.89% of the gross domestic product (GDP) of the Slovak Republic. The general government debt in 2023 reached EUR 68.83 billion, which represents 56% of GDP.

In the spring, the Statistical Office of the Slovak Republic officially presents preliminary data on economic results of the general government sector for the year 2023 for the first time (the so-called spring notification of the deficit and debt levels for the Slovak Republic or also the EDP notification). At the same time, there is also a revision of data on general government sector from 2020. The published values for 2024 represent the current estimate of the deficit and debt level of the Ministry of Finance of the Slovak Republic according to the approved budget of the general government.
