Even after four years of struggling with the Covid infection, the Slovak hoteliers did not reach the historical records of visit rate

5.7 million guests stayed in Slovakia during 2023, which was the second highest number in the last 23 years. The most, over 1.3 million visitors, stayed in Bratislavský and Žilina kraj. Only Žilinský kraj approached the record visit rate from 2019.

In December last year, 373,000 guests visited tourist accommodation establishments in Slovakia. Thus, the achieved visit rate exceeded the figures from the identical period of the previous year by almost 13%. However, compared to the touristically successful year 2019, the hotels and guesthouses lacked more than 14% of guests, which in absolute numbers represented more than 61,000 visitors. Guests spent 841,000 nights in hotels and guesthouses, the average length of stay was 2.3 nights.
