

Euro indicators

Last update:02.04.2015

Section on [Euro-Indicators](#), which is part of the Eurostat website, provides general economic information on the euro area, European Union and individual Member States.

Area is aimed primarily at specialised users, such as official statisticians and economists, academics, researchers and journalists. It also contains useful information for students and the general public.

The section contains:

- Data structured as predefined tables and a large macro-economic database
- Eurostat and DG ECFIN news releases together with their annual release calendar
- Official Eurostat statistical publications
- Euro-Indicators working papers and Euro-Indicators online publications
- Economic and Financial Committee (EFC) Status Report
