Unlike in previous years, the publication is released in two parts, separately for municipal waste and in the second part for waste from the economy of the Slovak Republic.

In the first part of the publication, data on generated municipal waste broken down by types of municipal waste (including separately collected fractions) and waste treatment operations for the SR and regions are presented.

Second part of the publication contains data on waste generated in the economy of the Slovak Republic (hazardous and non-hazardous waste) in the reference year broken down by waste types and waste treatment operations for the SR and the regions.
