Catalogue of Publication includes basic information about individual titles, their publication dates, periodicity and language version. In 2024, the Office plans to issue 37 publications quarterly or annually. Following new publications are included in the Catalogue of Publication: Hidden stories of the 2021 Census, Census for the smallest, Balance of crops, Innovative activity of enterprises in the Slovak Republic in the years 2020-2022 and from the edition of Statistics in contexts: Main trends of population development in the SR 2023, and Main trends of population development in the regions of the SR 2023.

Publications, such as Food Consumption and Social Protection in the Slovak Republic (ESPROSS), were excluded from the Catalogue of Publications. Data will be published in the public database DATAcube.

The Office publishes expert contributions in the form of analyzes, reviews and information from various statistical fields in the scientific reviewed Journal Slovak Statistics and Demography.

All publications are available on the Office's website www.statistics.sk in the [Products/Catalogue of publications](#).
