Number of visitors in hotels tripled month-on-month in July, compared to the last year, it was lower number of guests by 20 %. A drop in the number of foreign visitors was partly replaced by higher number of domestic guests.

In July 2020, more than 570 000 visitors were accommodated in hotels, pensions and accommodation establishments in the SR, which was by 20 % lower than in July 2019. A year-on-year decrease was due to continuing lower number of foreign guests, but higher number of domestic guests, which was mainly reflected in selected regions. The number of domestic visitors at the level of the SR exceeded the last year's record numbers in the successful summer season of 2019, in two regions of the SR, a year-on-year growth of domestic guests was above the level of 15 %. A drop in the number of foreign visitors was mostly recorded by hotels in cities. Guests spent more than 1,8 million nights in the establishments in total, their number decreased by 23,3 % year-on-year.

Compared to the previous month (193 468 guests), accommodation establishments recorded an almost threefold increase in the number of visitors in July, but this number remained by one-fifth lower year-on-year. Last July, the number of visitors in hotels, pensions and other tourism establishments exceeded 712 thousand people. The number of guests thus approached the level of July 2016, when almost 560 000 guests were accommodated in Slovakia. The length of stays decreased year-on-year. During July of this year, visitors stayed for an average of 3,2 nights, a year ago it was 3,3 nights.
